

## **Frank Townsend**

Frank Townsend is the President of Patriot Shotcrete. Patriot Shotcrete is a Disabled Veteran-owned small business. Previously, he was the Vice President of Operations for Superior Gunite. He is a Civil Engineering graduate of Worcester Polytechnic Institute in MA, and holds a Master's Degree from the University of Missouri. Frank served as an Army Engineer Officer, deploying to numerous locations from Central America to the Middle East.

He then worked in the Heavy Civil field for Conti Federal Services, Schiavone Construction, and Tutor Perini as a Superintendent and Project Manager.

Frank is an active member of the American Concrete Institute (ACI) and the American Shotcrete Association (ASA). He currently serves as a Committee Chair for ACI and as President of ASA. Frank is also a member of the Moles and Beavers (Heavy Construction Organizations), the American Society of Concrete Contractors, and others. He has been awarded the US Army Corps of Engineers de Fleury Medal and Engineer News-Record New York's "Top 20 Under 40" design and construction leaders.

Some notable projects include the below-grade wall at the World Trade Center, New York; structural shotcrete on the East Side Access Project, New York; and the Henry Hudson and Bayonne Bridges in New York, to name a few
